# Customization Tool User Guide

1. Press the 'Customize' button to begin personalizing your footwear.

2. After opening the tools, the following view will be displayed.

3. At the top, you will find arrows that, when pressed, allow you to navigate between different footwear elements.

4. Press the square to add color to the selected footwear element.

5. Click a color from the 'Popular Colors' section or choose a corresponding color from the palette in the 'Choose Your Own Color' section. The selected color will be applied only to the element chosen using the arrows mentioned in point three.

Popular Colors

Choose Your Own Color

#FFFFFF

HEX

6. After selecting a color, a button will appear allowing you to remove the chosen color.

Remove Color

7. Press the square to add text to a specific side of the footwear.

Aa

8. Enter text for the outer side of the footwear or the inner side of the footwear in the designated areas provided for each.

Enter Text on external side of the shoe

You can enter up to 12 characters

Enter Text on internal side of the shoe

You can enter up to 12 characters

9. After entering the text, a black rectangle will appear, allowing you to change the color of the selected text
